****A Message to all Spiritual Satanists and/or members of the "Temple of Zeus"*******

As of July 2026, it is becoming increasingly apparent that the organization which refers to itself as the "Temple of Zeus", which claims to represent the spiritual, moral and material evolution of our Joy of Satan may in fact be an illegitimate claimant to the legacy of High Priestess Maxine Dietrich and the divine mission entrusted onto Her by the ancient Gods, and the product of an insidious and Jewish conspiracy against our Satanic cause.

As some of you may have already noted, the stances and proclamations of the "Temple of Zeus" have been altered and reversed on nearly countless occasions since the beginning of this organizational transformation in February of 2025. We were initially told by High Priest Hooded Cobra and High Priestess Lydia that there was no cause for concern, that the Joy of Satan would remain the organization's inner circle, that nothing alarming would change regarding the Spiritual Satanic path, that the Joy of Satan domains would remain and that we would at least continue with the Reverse Torah Rituals and other workings against the enemy on Jewish holidays, after being told to cease with all standard Final RTR schedules.

Since then, we have seen all of the pre-"Temple of Zeus" JoS domains either fall into neglect, transformed into a redirect page or excluded from the Wayback Machine, if not for being taken down altogether. The narrative regarding the reasons for the reconstitution as the "Temple of Zeus" has shifted from "becoming more agreeable and understandable to newcomers", to "Satan's name is entirely of Hebrew origin, insulting to our Father, and no longer a name of power" (which is quite ironically proven false within by the HPS Maxine/HoodedCobra-authored materials still present on the "Temple of Zeus" site, as seen in a number of snapshots uploaded to archive today), and even the claim that the reputation of the Joy of Satan had become too far tarnished, despite the fact that we had become larger than any other sect of Satanism by 2024, and with the protection and blessings of the Gods, overcame all of the groups and sites acting in opposition to us, along with all of the attempts by the enemy to dismantle our holy organization by means of spiritual warfare, cyber attacks and defamation.

It is no longer possible to speak freely on any website or service run by the "Temple of Zeus", and heavy AI-powered moderation maintains censorship of our presently-hijacked Ancient Forums so strict that no one may even mention the "Jews", "Spiritual Satanism", or the "Joy of Satan" without immediate alteration of their posts, and the "Temple of Zeus" has foolishly elected to denounce National Socialism as an attempt by Hitler, the NSDAP and the SS to "steal" the ancient religion of the Gods for "political purposes", in blatant and strange denial of everything that has been learned and known to have been the truth regarding the Third Reich. Individuals of Jewish descent are by no means restricted from joining the "Temple of Zeus", and only the enemy rabbis are even vaguely denounced as being amongst the "Yehuborim" cursed by the rituals and prayers of the ToZ, a term which has also been extended to apply even to Pagan Gentiles. All criticism of the Jews has been suspended, even as the internet continues to rise up in protest of Israel and the actions of Jewry.

Moreover, after having spoken to the Gods and further studied the material of the site, I have grown increasingly concerned that the behavior of the "Temple of Zeus", the division which it has created within our ranks with its dogma, the ambiguous magical direction of its Liturgical Terms and prayer-affirmations, and its refusal to engage in any spiritual warfare directly targeting the enemy is almost akin to a knife at our very backs, and an immense danger to us all.

I was told by Father Satan in February of 2025 that although the energies directed towards Zeus by means of ritual are inoffensive and remain empowering of the Gods (Satan and Baalzebul have been worshipped and blessed under a great many different names throughout the millennia), halting the RTRs and other spiritual warfare initiatives completely were a mistake. I should not need to remind any member of the "Temple of Zeus" that Israel is not only actively involved in two major wars at present (which are for all intents and purposes fronts of World War III), but still maintains an arsenal of nuclear Jericho-3 ICBMs which may be launched at a moment's notice at the U.S, Europe, Russia, or any other target in the world under the "Samson Doctrine", in addition to the fact that corporations and world governments which remain under the influence of international Jewry are continuing to advance the agenda of AI-driven mass surveillance, control and enslavement of mankind at what seems to be an unprecedented pace.

We have inflicted great damage upon the enemy, both spiritually and informationally, but more must still be done, and we absolutely cannot afford to ignore the fact that the Jews and their masters remain what is beyond a doubt the most terrible threat to this planet and its future by censoring all talk of them altogether while cursing many of our own Pagan ancestors as "Eilotil", "Yehubor" and "Kagoim".

I can neither comment nor speculate on the status of High Priestess Maxine Dietrich. Because of the degree of protection to which Satan and His demons afford to us, I am not inclined to believe that any manner of harm has befallen Maxine. Given what I know of our path and its very genuine power, I do not doubt that She is presently in the midst of attaining to the higher stages of the Magnum Opus. It is worth noting however that someone clearly possessed of some degree of spiritual knowledge has restored the proper Joy of Satan site at https://joyofsatan.org to operational status, with all links to the Ancient Forums and all mention of HP Hooded Cobra removed.

I additionally have little to say with regards to High Priest Hooded Cobra, as I do not rightly know if the clergy are genuinely in control of Ancient Forums. Hooded Cobra was for quite some time one of our most staunchly National Socialist, and most importantly, Satanic, brothers, but the statements of the "Temple of Zeus" are in many cases nearly the precise antithesis of HP Hooded Cobra's writings, sermons and posts on the Ancient Forums from prior to 2025. I am presently lead to believe that Hooded Cobra either became severely jaded and personally embittered by the nature of interacting with social media and the interactions with less-sincere and sensible newcomers to the forums, and immersed in feelings of abandonment, despair, and an overwhelming burden, decided to impose drastic alterations, or was somehow discovered and compromised or threatened by the enemy in late 2024/early 2025. This however is mere speculation on my part, and out of respect for his past deeds and contributions, I will speak no further of him until additional confirmation is received.

May the Gods forgive me and set me upon the proper path if I am mistaken in my observations, and allow me the opportunity to rectify my error, but matters surrounding the "Temple of Zeus" and the repression and absence of our Satanic brotherhood have steadily grown much too alarming to ignore, and thus I write this document in the hopes that it will be found by other Spiritual Satanists who cannot help but feel intuitively that something has gone terribly wrong with what is supposed to be our triumphant, dignified and truthful organization of Satan.

Please disseminate this document throughout any Spiritual Satanist or Zevist spaces of free discourse and thought. Maintain watch of the joyofsatan.org site, respond with any of your own concerns, comments or disagreements on any site upon which this document might be found. Let us not be silent, truth fears neither investigation nor debate, and our god is truth (Satya) himself. If we are all so fortunate, perhaps Lady Maxine is indeed amongst us still and shall summon the might of our Satanic legion to Her side again soon. Millions of people throughout the world possess an interest in Satanism, and a billion more silently long to return to their Satanic spiritual past. Our work has only just begun; we cannot submit to falsehood now.

Hail Satan!
Hail Baalzebul/Zeus!

All hail the Gods of Duat!
